

# SAFETY COVER PRICING GUIDE

**FIBERGLASS EDITION**

# SAFETY COVER PRICING GUIDE

## DISCLAIMER

### FIBERGLASS EDITION

- Due to the nature of fiberglass pool shells, some manufacturers refer to their model sizes based on overall pool shell dimensions (outside dimensions), while others use measurements to the water's edge or (inside dimensions). As a result of this variation, GLI will still require measurements taken to the water's edge when ordering a Safety Cover for fiberglass models not on file.
- Please visit [www.glipoolproducts.com/fiberglass](http://www.glipoolproducts.com/fiberglass) to view a list of fiberglass pool specifications we currently have on file. This list is updated frequently as new measurements and specifications are received. If the pool model you are looking for is not listed, we will need one of the following forms of measurement:
  - Length & Width taken from water's edge for Rectangular shapes.
  - AB measurements for freeform and custom shapes.
  - CAD files in .dwg or .dxf format
  - PDF of blueprint printed directly from the manufacturers CAD file
- This price guide applies to Fiberglass pools that have been installed in a conventional manner. Note the option to add Anchor Collars, Paver Tubes and upgrade to HD Commercial Springs (HD springs are a free upgrade with Pro-Mesh & Hyperlite fabrics). Pool Models are quoted in 5x5 and 3x3 strap spacing where applicable. Freeform shaped pools cannot be manufactured in 5x5 spacing.
- If your installation requires the following considerations, measurements, and photos must be submitted for quotation purposes and are subject to custom pricing:
  - Non-removable Ladder, Hand-Rail or Slide Cut-Outs
  - Raised decks, raised spas, raised walls, rock formations and negative edges
  - Decking other than 100% concrete or pavers. Mixed type decking applications should be sent over for quotation purposes so that proper anchoring hardware is provided.
  - Sharp or Rough coping requiring perimeter padding
